Document Management System

User Acceptance Testing — Sign-Off Certificate

Organisation	South African National Petroleum Company (SANPC)
Document Ref	DMS-UAT-001 | Rev 00
Date	September 2026
Classification	Internal — Confidential

1. Project Information

Field	Details
System Name	SANPC Document Management System (DMS)
Organisation	South African National Petroleum Company (SANPC)
Environment Tested	Production
Testing Period (From)	
Testing Period (To)	
UAT Coordinator	

2. Purpose

This UAT Sign-Off Certificate confirms that the SANPC Document Management System has been tested against all agreed functional requirements and is accepted for production use.

By signing, the signatory confirms that:

- All functionality has been tested and verified
- The system operates in accordance with agreed requirements
- All defects identified during testing have been resolved
- The system is accepted and ready for production go-live

3. Scope of Testing

☑ All 37 functional areas tested and confirmed passed.

#	Area	#	Area
☑ 1	User login — Microsoft Entra ID (SSO)	☑ 20	Signed page upload
☑ 2	Dashboard — statistics and navigation	☑ 21	Attachment upload and download
☑ 3	Document upload (file, metadata, workflow setup)	☑ 22	Document amendment (file replacement)
☑ 4	Document number auto-generation	☑ 23	Version history view
☑ 5	Mandatory reviewer auto-population	☑ 24	Activity log / audit trail
☑ 6	Submission for review — email notifications sent	☑ 25	Document search and filter
☑ 7	Reviewer access via email token link (no login required)	☑ 26	Document viewer (PDF, Word, Excel)
☑ 8	Reviewer decision — Approve	☑ 27	Reports and analytics
☑ 9	Reviewer decision — Request Changes	☑ 28	CSV data export
☑ 10	Reviewer decision — Reject	☑ 29	User management (create, edit, delete)
☑ 11	Reviewer replacement mid-workflow	☑ 30	Role assignment
☑ 12	Document Controller advancing to approval	☑ 31	Mandatory reviewer configuration per document type
☑ 13	Approver decision — Approve	☑ 32	Email reminder for overdue reviews (SLA)
☑ 14	Approver decision — Reject	☑ 33	Cancellation of document
☑ 15	Approver access via email token link	☑ 34	Resubmission after rejection
☑ 16	Document release — CONTROLLED (non-policy)	☑ 35	Superseded document visibility rules
☑ 17	Document release — EXCO process (Policy document)	☑ 36	SLA deadline enforcement (21-day minimum)
☑ 18	Board / EXCO resolution upload	☑ 37	Notification bell / in-app notifications
☑ 19	Auto-superseding of previous controlled version		

4. Test Results Summary

4.1 Core Workflow — Document Created to Controlled

#	Test Action	Expected Outcome	Result
1	Log in as Document Controller	Dashboard displays with correct role menu	**PASS**
2	Upload document with full metadata	Document saved with REGISTERED status	**PASS**
3	Set reviewers, approver and review deadline	Workflow configured correctly; 21-day minimum enforced	**PASS**
4	Submit for review	Status → IN_REVIEW; reviewer emails received	**PASS**
5	Reviewers approve via email link (no login)	Status shows APPROVED per reviewer; overall → REVIEW_COMPLETE	**PASS**
6	Document Controller advances to approval	Status → PENDING_APPROVAL; approver notified	**PASS**
7	Approver approves via email link	Status → APPROVED	**PASS**
8	Document Controller marks as Controlled	Status → CONTROLLED; retention date set; previous version superseded	**PASS**

4.2 Policy Document — EXCO Workflow

#	Test Action	Expected Outcome	Result
1	Upload a Policy (PO) document	EXCO Required flag automatically enabled	**PASS**
2	Complete full review and approval workflow	Status → APPROVED	**PASS**
3	Submit to EXCO	Status → EXCO_PENDING	**PASS**
4	Upload Board / EXCO resolution document	Status → CONTROLLED	**PASS**

4.3 Changes Requested & Rejection Workflows

#	Test Action	Expected Outcome	Result
1	Reviewer requests changes	Status → CHANGES_REQUESTED; other reviews paused	**PASS**
2	Document Controller amends and resubmits	Status → IN_REVIEW; reviewers reset to PENDING	**PASS**
3	Reviewer rejects document	Status → REJECTED; all reviews halted	**PASS**
4	Document Controller resubmits as new version	Version snapshot created; status → IN_REVIEW	**PASS**

4.4 Role-Based Access

Role	Test	Expected Outcome	Result
Originator	Can only see their own documents	No other documents visible	**PASS**
Reviewer	Cannot access New Document or Reports	Menu items absent from sidebar	**PASS**
Reviewer	Cannot see superseded documents	Superseded documents not in list	**PASS**
Admin	Can see all documents including superseded	Full document list visible	**PASS**

5. Defects

✓ All defects identified during testing have been fully resolved. No open issues remain.

6. Sign-Off

> *"I confirm that I have reviewed the results of the User Acceptance Testing for the SANPC Document Management System. The system has been tested against agreed requirements, all defects have been resolved, and I formally accept this system for production use on behalf of South African National Petroleum Company (SANPC)."*
